OBJECTIVE

Motivated software developer who earned a Certificate in Full Stack Web Development at University of California Berkeley. Seeking to use proven skills in Web development technologies, tools and project management to meet business needs.

TECHNICAL SKILLS

- Programming experience: Git, HTML, CSS, Bootstrap, JavaScript, React, jQuery, APIs, MERN, PWA(Progressive Web Application), MongoDB, Node, Express, REST API, responsive design, and app deployment.
- Skills: Communication, Teamwork, Patience, Accountability, Positivity, Problem-Solving, Curiosity

PROJECTS

- <https://fixup-job.herokuapp.com/>- FixUp is a full stack web application where a user can create an account, post jobs, apply to jobs, and rate jobs. It used Node, Express, MySQL and Handlebars template. I developed strong collaboration, teamwork, and communication in the process. Took responsibility in initiating the user interface.
- <https://tutor-central.herokuapp.com/>-A Tutor Central is a freelance marketplace for top experienced developers to provide tutoring services. Learn from tutors and get your problems solved by freelancers. We used MongoDB, Express, Node and React on this project.
- <https://alma-dev914.github.io/movies-watchlist/> -An app that built with React and used third party API like TMDB. This is a personal project using my knowledge how to fetch data from an API and also explore the SASS framework.

EDUCATION

UC Berkeley Bootcamp California – Certificate, 2022 Full Stack Web Development
